

Sound credits

Version 1.0 (Build 3)

App	1B Run
Bundle ID	com.kova.pickfive
Developer	KovA Studios
Date	September 11, 2026

This note covers the two Pixabay sound effects added for this build. Both files are copied into the iOS app bundle. They are not streamed from Pixabay at runtime.

License for both files: Pixabay Content License. Commercial use, modification, and use without required attribution are allowed. These clips are mixed into the game. They are not sold or distributed as standalone audio. Attribution below is provided for App Review.

Summary: <https://pixabay.com/service/license-summary/>

Full terms: <https://pixabay.com/service/terms/>

1. Wheel spin

Filename	wheel-spin.mp3
Pixabay title	Spin
Creator	victorabdo
Source	https://pixabay.com/sound-effects/film-special-effects-spin-232536/
License	Pixabay Content License (commercial use allowed; attribution not required)
Credit	Spin by victorabdo via Pixabay

Where it plays. Classic and 1v1 team and era wheels, including one-sided rerolls. One sample plays for the first spin of both wheels and again when only the team wheel or only the era wheel is rerolled. Playback starts from a user gesture and stops if the player leaves the screen.

Code. lib/tradeup/gameAudio.ts (WHEEL_SPIN_SOUND_PATH, startWheelSpinSound). Triggered from components/tradeup/BallionTicketMachine.tsx (beginSpin) on the first roll and on team or era rerolls. Classic: components/tradeup/BillionTradeEngine.tsx. 1v1: components/tradeup/h2h/H2HPositionPicker.tsx and components/tradeup/h2h/H2HTradeUpMatch.tsx.

Bundled in the iOS app. Yes. ios/App/App/public/sounds/wheel-spin.mp3 (117,864 bytes), a byte-for-byte match of public/sounds/wheel-spin.mp3.

2. Cash register (cha-ching)

Filename	cash-register.mp3
Pixabay title	Cash Register 1
Creator	ksjsbwuil
Source	https://pixabay.com/sound-effects/film-special-effects-cash-register-1-481216/
License	Pixabay Content License (commercial use allowed; attribution not required)
Credit	Cash Register 1 by ksjsbwuil via Pixabay

Where it plays. Once, after the final roster money total finishes counting and is revealed. That is the Classic result and the 1v1 value reveal, which uses the same reveal screen. The same file also plays once when a 1v1 player wins the match.

Code. lib/tradeup/gameAudio.ts (CASH_REGISTER_SOUND_PATH, playFinalTotalSettleSound). Final total: components/tradeup/ClassicRosterReveal.tsx. Classic: components/tradeup/BillionTradeEngine.tsx. 1v1 value reveal: components/tradeup/h2h/H2HClassicValueReveal.tsx. 1v1 win: components/tradeup/h2h/H2HMatchScreen.tsx.

Bundled in the iOS app. Yes. ios/App/App/public/sounds/cash-register.mp3 (89,443 bytes), a byte-for-byte match of public/sounds/cash-register.mp3.
